## Data Loss Database - June, 2004 report

<http://datalossdb.org>

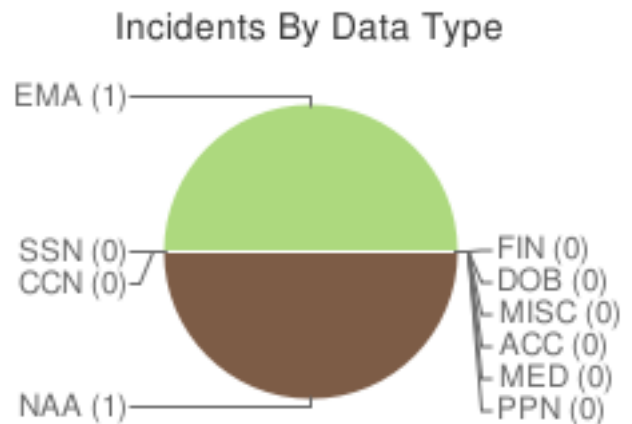

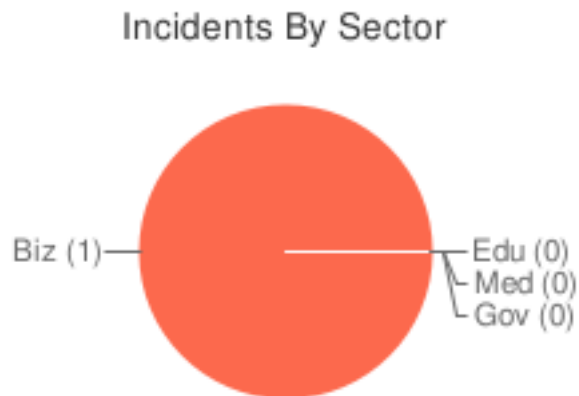

Version: 3.0 - Created: 2008-07-14 - Updated: 2008-09-21

This report shows publicly reported data breaches involving personally identifying information (PII) for the month of June 2004. All data contained in this report has been gathered and compiled by Attrition.org, Etiolated.org and the Open Security Foundation and is freely available for non-commercial ventures and academic research.

This report is a living document that is regenerated nightly as new information becomes available and is added to DataLossDB. Please direct any questions or comments about the data contained within this report to Open Security Foundation.

Any reproduction or distribution of this report for commercial purposes requires the permission and expressed written consent of the Open Security Foundation.

The following graphs show data loss incidents by data type and by business type over the period of this report.

# Incidents

ID	Reported	Records	Orgs	Summary	Data Types
<a href="#">48</a>	2004-06-24	30000000	America Online	92 million email addresses for 30 million subscribers sold to spammers	EMA, NAA
